

CONNECT ON CAMPUS

Stay in the know on everything campus life – from hottest discussions to the newest food craze and all upcoming events to check out!

U-Wave is a one-stop application for NTU students, where they can find out the latest bus timings at the bus stops closest to them, access their timetable, book facilities and even check to see the crowd levels at different commonplace canteens.

Students can also find out an entire curated list of perks just for them, put together by the Union, called NTUPerks.

Have any feedback or suggestions? Be an active voice by connecting with the Union via U-Feedback! We strongly encourage you to play an active role through this channel. Your feedback allows the Students' Union to develop a more conducive learning environment and make every student's experience here in NTU a more memorable one!

Find out all about events, activities and the latest news on everything campus life in NTU's very own publication run by the Editorial Committee under NTUSU!
